

BIOGRAPHY

Melvine Anyango Otieno

Melvine A. Otieno is an Environmental Health Scientist, Planetary Health East Africa Regional Hub lead at Planetary Health Alliance and a PhD candidate at Martin Luther University Halle-Wittenberg, Germany. She advances climate action, sustainability, and global health in collaboration with KLUG – German Alliance on Climate Change and Health. An Assistant Lecturer at the University of Eldoret, Kenya, she coordinates the DAAD-funded SOPHEA project (2022-2025).

As 2019 Planetary Health Campus Ambassador and former Next Generation Network Fellow (2020-2023), she mentors emerging planetary health leaders globally. Through research, advocacy, and leadership, Melvine champions transformative solutions at the intersection of climate change and planetary health.
